Frontend Designer

Frontend designer to design the northstake's leading staking interface

About northstake

Northstake provides the leading staking offering for next generation blockchains that ensures the most attractive 'return on stake' in a trustworthy, transparent and reliable way.

Our custodial and non-custodial solutions are built on industry-grade cloud infrastructure, while our dedicated onboarding and premium service experience set us apart from the competition.

We are significantly expanding our team of 25+ full time professionals and advisors to move onto the next stage of our growth.

About you

Do you have a passion for UX/UI design? Do you have experience in designing interfaces with high quality aesthetics? Do you want to join a fast-paced environment in a hyper-growing industry?

Then you might be who we are looking for. If you have an inspiring portfolio of projects and have experience working together with

developers and product managers, we would really like to meet you.

We would especially like to hear from you if you have experience in HTML/CSS.

What northstake offers

Joining the northstake organisation is an opportunity to:

- Get your hands dirty with cutting edge technologies
- Work in an environment with skilled colleagues focused on findings solutions and getting stuff built
- Shape the core of a fast-moving startup
- Go to work at your desk at home or in our modern offices in vibrant Noho, Kødbyen, Copenhagen

Interested?

Feel free to contact northstake to hear more about the position or to send your CV at info@northstake.dk (no cover letter is needed).
